PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

A secured army barracks of approximately 45 acres, on the southeast edge of Sarny (Figure 1), is served by secondary roads and has rail access.

The installation (Figures 2 and 3) contains two multistory barracks, one multistory administration barracks building, one multistory administration building, one administration building, two vehicle storage buildings, and nine storage buildings. An athletic field and a small-arms

firing range are also located in this installation.

The installation was covered by [redacted] missions between [redacted] [redacted]. Buildings can be identified on the early, poor-quality photography, but they cannot be interpreted until later, better-quality photography; however, there is no apparent change in the installation, which appeared active on the latest coverage.
